The purpose of this School Plan is to document the improvement work supported by the National partnership Agreement on Low Socio-Economic Status School Communities.

Together, this funding is designed to build the capacity of Western Australian schools to contribute to the achievement of the following high level outcomes:

- a) all children are engaged in and benefiting from schooling;
- b) young people are meeting basic literacy and numeracy standards, and overall levels of literacy and numeracy achievement are improving;
- c) Australian students excel by international standards;
- d) schooling promotes the social inclusion and reduces the education disadvantage of children, especially Indigenous children; and
- e) young people make a successful transition from school to work and further study.
